Dear Nyati Family,

Greetings to all of you and I hope you and your family members are safe and taking all the precautionary measures.

As you are all aware with the evolution of the COVID-19 pandemic, the entire world is dealing with a significant global challenge. Our country and many other nations have implemented stricter and more impactful measures to ensure the safety of their citizens. In addition to the immediate and grave health concerns, we are seeing a much wider impact on all of our lives as well as the global economy.

Firstly, I laud every one of you for steering our company through this crisis while ensuring maximum safety. Your commitment towards the group makes all the difference. Over the course of 23 years, our company has seen and mastered many challenging moments and our resilience stands undeterred. We are all convinced that together we will overcome this as well. I would like to remind you of the special responsibility that a company like ours has at this time. Housing has now become essential to peoples' livelihood. In today's situation we have all realized how our home has protected us from all dangers and calamities. In moments like these is where we realize that having a home is truly the only vaccine in combating the pandemic and our mission and vision matter a lot to the people and communities we serve. It is in times of such crisis that heroes are born. In all modesty, we want our values to shine at this difficult hour. This is the moment for putting in the extra effort, for going that extra mile. I fully recognize that all of us are also busy managing challenging personal and family situations. Your effort will make a huge difference to our company, to our society and to your own wellbeing. I would like to congratulate all verticals for undertaking special CSR initiatives during the lockdown to support those who are not as blessed and fortunate as we are.

To overcome this unique challenge, I request all of you to stay focused, firstly on your health, as we can only make positive contributions and live our purpose and values if we stay healthy and avoid spreading the virus. Secondly, we need to focus our efforts across all our verticals - Real Estate, EPC, Hospitality and NL Healthcare. Every business unit will have to go that extra mile and put in more efforts in order to ensure that each vertical sustains and grows. And lastly, use this opportunity to learn, develop and upgrade your skills. Knowledge is the greatest power one can use to survive and deal with any situation and overcome all hurdles. Change is the only constant and we have to change ourselves constantly to adapt to varying situations and circumstances.

I am proud and inspired by the way our company has risen to this challenge - with flexibility, resilience, courage and a caring heart. Thank you for your enormous support. Let's work together – across all verticals of the business - to keep this going. Let's make this one of our finest hours. I am positive that we will get through this, if we boost our morale and energy. It is literally in our hands.

Please, do look after yourselves and your families. STAY SAFE!

Thank you.

NL HEALTHCARE

Nyati Group is proud to have an endeavour such as NL Healthcare which contributes to the overall wellbeing of society with continuous efforts to raise the quality of life for residents in Pune. Destined to conquer hearts. NL healthcare was conceptualised with a vision to grow PAN-India.

In the wake of COVID-19, we were one of the few dealers who were able to promptly respond to emergency requirements thanks to our robust internal systems, in terms of product queries like:

- 1) PPE Kits
- 2) N95 masks
- 3) 3 Ply masks
- 4) Ventilators and many more

We have helped multiple NGOs & Zilla Parishads, doctors, hospitals and institutes by delivering the above mentioned essentials to their doorsteps.

We have assisted developers & manufacturing units in restarting operations with the help of infrastructure created on site for smooth functioning with all the recommended measures undertaken for frequent temperature checks, sanitization equipment and face masks in line with WHO standards.

Most importantly, we were able to keep our emergency services like oxygen supply & home healthcare products uninterrupted during the lockdown period.

Here is a picture collage of some of the products we offer and example of PPE kits currently in use.
